

ANDY BJERK

WEB DEVELOPER

Portfolio: savoryboi.github.io/react-portfolio

PROFILE

Full-Stack MERN developer, utilizing my background in communications and media to create meaningful and creative solutions to user problems by having a holistic understanding of how users interact with and utilize digital products.. Most passionate about front end development, but extremely capable of both front and backend work. I'm a quick, hands-on learner, and am eager to build upon what I know.
