University of Minnesota
2016-2020

PROFILE

I'm a MERN full-stack developer In the early stages of my career with a background in food service management. Most passionate about front end development, but extremely capable of both front and backend work. I'm a quick, hands-on learner, and am eager to build upon what I know.

EXPERIENCE

MYDOOD - SOCIAL APP (MERN)

github.com/savorysty/my-dood

September 2022

- React components (Timeline, Profile)
- CSS layout and styling
- GraphQL queries and mutations to populate components with stored user data from MongoDB
